# Code Crafters

Prepared by :-

Yamini Barad :- 243060601002

Riya Patel :-

# Outline:-

- About project
- Description
- Technology Used
- Project scope
- Modules

# About project:-

- Project name:- Code Crafters

- Description:-

a website is based on digital platform for learning different - different coding languages. On this platform languages available like (c,c++,ccc,c#,python,HTML,css,Java,Java-script,PHP,etc... ).

- Purpose:- In one platform all languages available and that way is very important

# Technology used:-

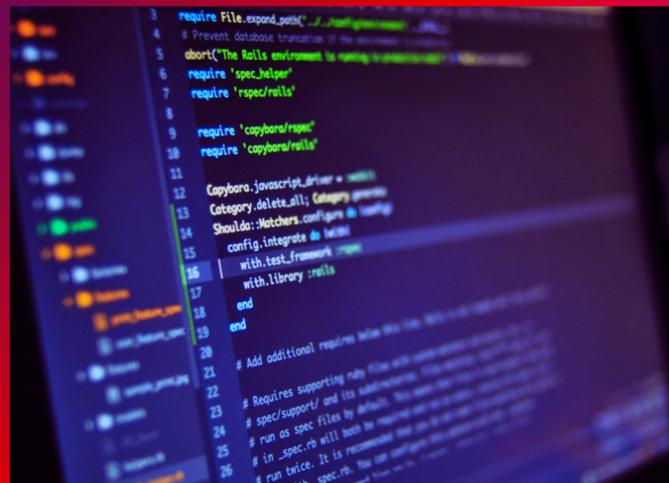

SR.N O	Technology used	content
1.	Fronted-Technology	HTML , CSS
2	Interactively	JAVA , JAVAscript
3	Hardware Requirement	Intel-5 , greforce nivchia RTX 3095 , 4-12GB RAM
4	Software and OS	Windows-12 professional, LINUX , MACOS

# **Project Scope:-**

- Academic purpose project for SEM-3
- Build an interactive online learning coding language website.
- Showcase skills in foundation development and javascript DOM manipulation.

# **Project module**

- 1. Home page:- Introduction+overview+banner+featured brands.**
- 2. Brand page:- list of languages.**
- 3. Modles page:-Description of languages**
- 4. Detail page:- Time duration.**
- 5. About Us:- Project background , about website.**
- 6. Contact Us:- form for user require.**

```
3 require File.expand_path('../config/environment', __FILE__)
4 # Prevent database truncation if the schema has changed
5 abort("The Rails environment is running in production mode!") if Rails.env.production?
6 require 'spec_helper'
7 require 'rspec/rails'
8
9 require 'capybara/rspec'
10 require 'capybara/rails'
11
12 Capybara.javascript_driver = :webkit
13 Category.delete_all; Category.create!
14 Shoulda::Matchers.configure do |config|
15   config.integrate do |t|
16     t.with test_framework :rspec
17     t.with library :rails
18   end
19 end
20
21 # Add additional requires below this line to register new fixtures
22
23 # Requires supporting files within the same directory as this file or,
24 # under 'spec/support/' and its subdirectories, if you've configured that
25 # run as spec file by default.
26 # If you're not using the default location of files, you can provide those
27 # in .spec.rb will both be recognized as fixtures
28 # run twice. It is
29 # run twice. You can configuration in .spec.rb. You can configuration in .spec.rb.
```

**THANK YOU!!**
